Forecast for Tuesday 01 Jun 2021

Weather: A fine and settled day, with any early morning low level mist soon clearing. Dry with an ample amount sunshine across Snowdonia, allowing temperatures to rise readily during the afternoon making it feel very warm. Some cloud developing during the afternoon but this clearing into the evening.

Chance of cloud free mountain/hill tops above 800m: 100% throughout.

Visibility: Very good to excellent with distant hills clearly visible from the summits. Any early morning mist across low lying ground will quickly clear.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels will again be high to very high Tuesday, therefore extra protection (sun screen) will be needed if spending any length of time on the hills or mountains. Given the increasingly warm weather also be aware of dehydration.

Forecast for Wednesday 02 Jun 2021

Weather: Cloud will increase from the south and west early Wednesday heralding the arrival of a band of showery rain pushing north across the area. Generally cloudy during the morning with a risk of heavy showers and thunderstorms developing from midday. Further heavy showers are possible throughout the afternoon with showers easing a little late evening.

Maximum wind: 10-15mph, gusting 25-30mph.

Chance of cloud free mountain/hill tops above 800m: 80% dropping to 60% during the afternoon

Visibility: Generally good, however cloud bases may occasionally drop close to 800m to 1000m from early afternoon and will give some temporarily poor visibilities over the summits. However as showers develop sudden deterioration in the visibilities are possible.

Temperature: **Valleys:** PS10 Celsius, becoming PS16 Celsius
At 800m: PS7 Celsius, becoming PS13 Celsius
Freezing level: Above the summits.
